

CREATING GOOD JOBS, A CLEAN ENVIRONMENT, AND A FAIR AND THRIVING ECONOMY

November 18, 2021

U.S. House of Representatives  
Washington, D.C. 20515

Dear Representative,

As a coalition of some of the nation's largest labor unions and environmental organizations, collectively representing millions of members and supporters, the BlueGreen Alliance urges you to immediately pass H.R. 5376, the Build Back Better Act.

The Build Back Better Act is a big deal for workers and the climate. The bill makes investments to deploy clean energy and clean vehicles—with strong labor and domestic content standards—and to support the growth of clean technology manufacturing and supply chains, modernize our infrastructure, support the care economy, and reinvest in workers and communities. These significant investments will put our nation on a path to a clean, prosperous, and equitable economy—built for America, by America.

Together with the investments from the Infrastructure Investment and Jobs Act (IIJA), these measures will support existing and create millions of new good-paying, union jobs across the country and fight climate change and economic and racial inequity.

We cannot wait any longer to build back better. Congress must pass the Build Back Better Act and send it to the president's desk.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Walsh", is positioned above the typed name.

Jason Walsh
